

Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting. Alternatively, each tree has had a reference tag attached and these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*Useful Life Expectancy <2 Years)	Tree Image
13	5 Hakea Court	Tree to be removed	Replacement tree to be planted	<i>Callistemon salignus</i>	Useful Life Expectancy <2 Years	
14	8 Hakea Court	Tree to be removed	Replacement tree to be planted	<i>Callistemon salignus</i>	Poor foliage, vigour and density	
15	8 Hakea Court	Tree to be removed	Replacement tree to be planted	<i>Grevillea sp.</i>	Decay through main trunk. Mostly shrub type form.	

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*Useful Life Expectancy <2 Years)	Tree Image
16	10 William Street (In Hakea Court)	Tree to be removed	Replacement tree to be planted	<i>Hakea salicifolia</i>	Foliage vigour and density is good, but root plate upheaval has developed over time.	
17	12A William Street (In Hakea Court)	Tree to be removed	Replacement tree to be planted	<i>Ligustrum lucidum</i>	Useful Life Expectancy <2 Years	
18	12B William Street (In Hakea Court)	Tree to be removed	No replacement tree to be planted	<i>Leptospermum petersonii</i>	Useful Life Expectancy <2 Years	
19	12B William Street (In Hakea Court)	Tree to be removed	Replacement tree to be planted	<i>Photinia robusta</i>	Useful Life Expectancy <2 Years	

Infill Planting Locations

The table below lists the details of the locations where trees will be planted in currently vacant sites along Hakea Court, Mount Waverley. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement 12A 12B

Proposed Tree Species Options

Council's Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Single species (both sides of the road)

<i>Hakea laurina</i> (Pincushion)	
	<p>This is an attractive small evergreen. Fascinating, cherry red, ball-like flowers appear from autumn to late winter, adorned with long, white pin-like stamens, earning its common name of 'Pincushion Hakea'. It has long, leathery leaves which are thick and smooth.</p>
	<p>Mature Size</p> <p>Height x Width (m): 5m x 4m</p> <p>Form: Round</p>

Option 2 – Single species (both sides of the road)

<i>Lophostemon confertus</i> (Queensland Brush Box)	
	<p>This is a fast-growing tree. Dome-like in shape, it develops a very dense foliage cover of dark green, leathery leaves providing good shade for the summer months. Summer also brings clusters of small white flowers whose stamens give them a decorative fluffy appearance.</p>
	<p>Mature Size</p> <p>Height x Width (m): 10m x 15m</p> <p>Form: Oval</p>

Option 3 – Single species (both sides of the road)

<i>Lagerstroemia indica</i> x <i>L. fauriei</i> 'Tuscarora' (Tuscarora Crepe Myrtle)	
	<p>This deciduous tree has small oval shaped green leaves that turn a stunning reddish/orange in the autumn and beautiful coral red-crinkled flowers that are borne in late summer. The smooth bark is beige coloured with red-brown streaks.</p>
	<p>Mature Size</p> <p>Height x Width (m): 4m x 5m</p> <p>Form: V-Shaped</p>
