

Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting. Alternatively, each tree has had a reference tag attached and these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*Useful Life Expectancy <2 Years)	Tree Image
8	4 Ross Street	Tree to be removed	Replacement tree to be planted	<i>Olea sp.</i>	Useful Life Expectancy <2 Years	
9	23 Ross Street	Tree to be removed	Replacement tree to be planted	<i>Prunus cerasifera Nigra</i>	Useful Life Expectancy <2 Years	
10	32 Ross Street	Tree to be removed	Replacement tree to be planted	<i>Callistemon cultivar</i>	Decay at crown union.	

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*Useful Life Expectancy <2 Years)	Tree Image
11	44 Ross Street	Tree to be removed	Replacement tree to be planted	Prunus cerasifera Nigra	Decay at crown union.	
12	30 Fenton Street	Tree to be removed	No replacement tree to be planted	Ligustrum sp.	Low amenity, non-preferred street specimen.	

Infill Planting Locations

The table below lists the details of the locations where trees will be planted in currently vacant sites along Ross Street, Huntingdale. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

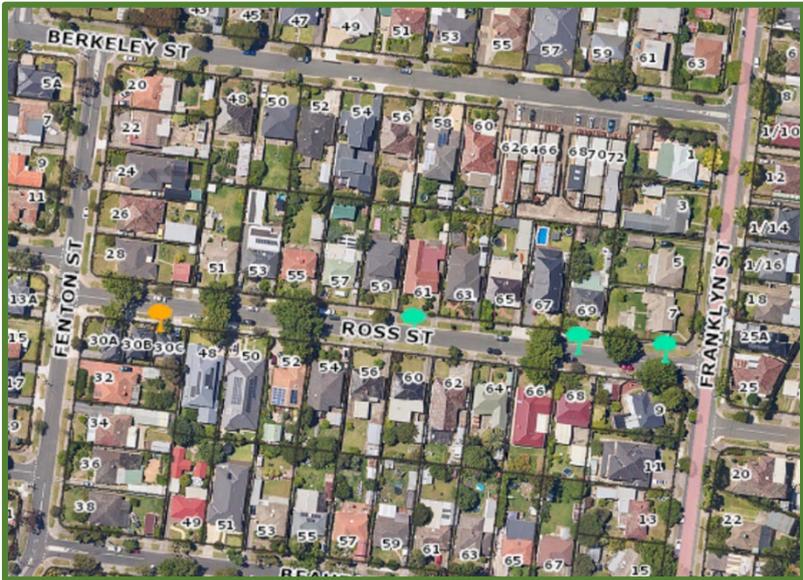

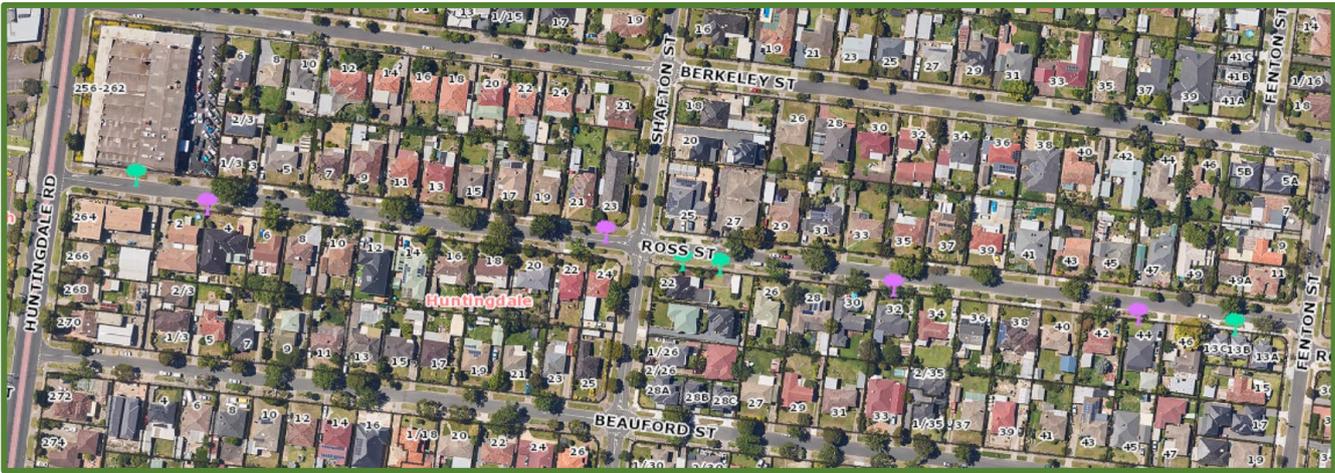

No.	Street Address	Assessment Outcome	Follow Up Action
1	61 Ross Street	Vacant Site	New tree to be planted
2	69 Ross Street	Vacant Site	New tree to be planted
3	22 Shafton Street (In Ross Street)	Vacant Site	New tree to be planted
4	22 Shafton Street (In Ross Street)	Vacant Site	New tree to be planted
5	13B Fenton Street (In Ross Street)	Vacant Site	New tree to be planted
6	7 Franklyn Street (In Ross Street)	Vacant Site	New tree to be planted
7	256-262 Huntingdale Road (In Ross Street)	Vacant Site	New tree to be planted

Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than two years' useful life and will be retained.

Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

Proposed Tree Species Options

Council’s Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Combination of species

Power line side of road

<i>Pyrus fauriei</i> 'Westwood' Korean Sun (Korean Sun Pear)	
	<p>This is a compact ornamental pear tree with a dense growth habit. It has a glossy green foliage that changes to bright tones of red and orange in autumn. Flowering seems to occur quite early in spring.</p>
<p>Mature Size</p> <p>Height x Width (m): 4m x 6m</p> <p>Form: Oval</p>	

Non-power line side of road

<i>Pyrus calleryana</i> x <i>P. betulaefolia</i> 'Edgewood' (Upright Callery Pear)	
	<p>A lovely ornamental pear that has a good spring floral display and attractive mid-green summer foliage that changes to reds and purples in autumn.</p>
<p>Mature Size</p> <p>Height x Width (m): 8-10m x 6-8m</p> <p>Form: Upright</p>	

Option 2 – Combination of species

Power line side of road

<i>Brachychiton populneus x acerifolius 'Jerilderie Red'</i>	
	<p>This is an attractive densely canopied tree that grows to approximately 8m tall and 7m wide. It has a bloated trunk and large lobed leaves. During the summer months, the tree is densely packed with stunning powdery-red flowers that are shaped like small bells.</p>
<p>Mature Size</p> <p>Height x Width (m): 8m x 7m</p> <p>Form: Broad domed</p>	

Non-power line side of road

<i>Corymbia eximia 'Nana' (Dwarf Yellow Bloodwood)</i>	
	<p>The foliage is broad with a strong green colour and may turn a paler yellow/green in the colder months. In spring the tree puts on an eye-catching display covering itself in creamy yellow flowers, attracting nectar-loving birds.</p>
<p>Mature Size</p> <p>Height x Width (m): 6-8m x 4-6m</p> <p>Form: Round</p>	

Option 3 – Combination of species

Power line side of road

<i>Lagerstroemia indica x fauriei 'Kiowa' (Kiowa Japanese Crepe Myrtle)</i>	
	<p>This deciduous tree has small oval shaped green leaves that turn a stunning reddish/orange in the autumn and beautiful white crinkled flowers that are borne in mid-summer. The smooth bark is beige coloured with red-brown streaks.</p>
<p>Mature Size</p> <p>Height x Width (m): 8m x 7m</p> <p>Form: Round</p>	

Non-power line side of road

<i>Acer X freemanii 'Autumn Blaze' (Freeman Maple)</i>	
	<p>The attractive, deeply indented yellow-green spring foliage turns green in summer before the vibrant red, orange and yellow autumn colours appear. 'Autumn Blaze' also boasts silvery-grey bark that contrasts wonderfully with the foliage.</p>
<p>Mature Size</p> <p>Height x Width (m): 13m x 10m</p> <p>Form: Oval</p>
