

## Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting, or alternatively each tree has had a reference tag attached, these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*ULE <2 Years)	Tree Image
33	5 Westley Street	Tree to be removed	Replacement tree to be planted	<i>Fraxinus oxycarpa</i>	Live crown ratio <70%, poor vigour (health)	

## Infill Planting Location

The table below lists the details of the locations where trees will be planted in currently vacant sites along Nelson Avenue, Oakleigh For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	4 Nelson Avenue	Vacant Site	New tree to be planted
2	7 Nelson Avenue	Vacant Site	New tree to be planted
3	92 Atkinson Street	Vacant Site	New tree to be planted

## Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than 2 years useful life and will be retained.

### Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

## Proposed Tree Species Options

Council's Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

### Option 1 – Combination of Species

#### Power line side of road

##### *Tristaniopsis laurina* 'Luscious' (Luscious Kanooka)

An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple coloured bark which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters through summer.

#### Mature Size

**Height x Width (m):** 8 x 4 m

**Form:** Oval

#### Non-power line side of road

##### *Lophostemon confertus* (Queensland Brush Box)

This is a fast growing tree. Dome-like in shape, it develops a very dense foliage cover of dark green, leathery leaves providing good shade for the summer months. Summer also brings clusters of small white flowers whose stamens give them a decorative fluffy appearance.

#### Mature Size

**Height x Width (m):** 10 x 15 m

**Form:** Oval

## Option 2 – Single species (both sides of the road)

### *Fraxinus pennsylvanica* 'Urbanite' (Urbanite Green Ash)

This tree is attractive and tough. It has a pyramid shape with a strong, upright trunk and develops grey-brown bark, which becomes deeply furrowed as it matures. Yellowish-green flowers are produced in spring and in autumn, dark green, glossy foliage turns a beautiful bronze colour before falling.

#### **Mature Size**

**Height x Width (m):** 11 x 8 m

**Form:** Round
