

Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting, or alternatively each tree has had a reference tag attached, these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*ULE <2 Years)	Tree Image
4	1 St Cloud Court	Tree to be removed	Replacement tree to be planted	<i>Prunus cerasifera Nigra</i>	Tree in senescence (deterioration), some decay, reduced vigour	
5	10 St Cloud Court	Tree to be removed	Replacement tree to be planted	<i>Tristaniopsis laurina</i>	Poor condition and form	

Infill Planting Location

The table below lists the details of the locations where trees will be planted in currently vacant sites along Sunnyside Road, Mount Waverley. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	26A Sunnyside Road	Vacant Site	New tree to be planted
2	177 Ferntree Gully Road	Vacant Site	New tree to be planted
3	14 Sunnyside Road	Vacant Site	New tree to be planted
4	14 Sunnyside Road	Vacant Site	New tree to be planted
5	10 Ganton Place	Vacant Site	New tree to be planted
6	34 Ian Grove	Vacant Site	New tree to be planted
7	34 Ian Grove	Vacant Site	New tree to be planted
8	3 Sunnyside Road	Vacant Site	New tree to be planted
9	2 Sunnyside Road	Vacant Site	New tree to be planted
10	6 Sunnyside Road	Vacant Site	New tree to be planted
11	22 Sunnyside Road	Vacant Site	New tree to be planted

Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than 2 years useful life and will be retained.

Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

Proposed Tree Species Options

Council's Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Single species (both sides of the road)

Hymenosporum flavum (Native Frangipani)

Commonly known as the native Frangipani, although not related to the exotic form, this tree bears highly fragrant flower clusters that start out cream and turn to yellow. Its flowers are great for attracting birds and native bees. We have found that in southern areas of Australia it performs best planted in the ground rather than in pots.

Mature Size

Height x Width (m): 8 x 3 m

Form: Oval

Option 2 – Combination of species

Power line side of road

Acer campestre 'Elsrijk' (Elsrijk Maple)

A small tree with a dense round canopy and a somewhat corky bark. Small leaves with rounded lobes, dark green in summer, which turn a beautiful clear yellow in the autumn. Green inconspicuous flowers from September to October. Paired samaras spread throughout the tree and hang in clusters well into winter.

Mature Size

Height x Width (m): 7 x 3 m

Form: Oval

Non-power line side of road

Fraxinus pennsylvanica 'Urbanite' (Urbanite Green Ash)

This tree is attractive and tough. It has a pyramid shape with a strong, upright trunk and develops grey-brown bark, which becomes deeply furrowed as it matures. Yellowish-green flowers are produced in spring and in autumn and dark green, glossy foliage turns a beautiful bronze colour before falling.

Mature Size

Height x Width (m): 11 x 8 m

Form: Round

Option 3 – Combination of species planted in an alternating pattern

Tristaniopsis laurina 'Luscious' (Luscious Kanooka)

An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple coloured bark which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters through summer.

Mature Size

Height x Width (m): 8 x 4 m

Form: Oval

Acer platanoides 'Crimson Sentry' (Crimson Sentry Norway Maple)

This is a flashy crimson foliated maple with dense upright branching. It has a compact growth habit with its large crimson leaves in summer turning to gold and orange in autumn. Adds great colour contrast foliage. A small tree with greyish-black bark that is lightly textured.

Mature Size

Height x Width (m): 7 x 4 m

Form: Upright
