## 1 ACKNOWLEDGEMENT OF COUNTRY

Monash Council acknowledges the Traditional Owners of the lands on which we meet, the Wurundjeri Woi Wurrung and Bunurong People, and recognises their continuing connection to the land and waterways.

We pay our respects to their Elders past, present and emerging and extend this to all Aboriginal and Torres Strait Islander People.

## 2 PRESENT AND APOLOGIES

### PRESENT

Councillors: P Klisaris (Mayor), B Little (Deputy Mayor), A de Silva, J Fergeus, G Lake (from 7.03pm, E Lee, C Little, N Luo, S McCluskey, R Paterson (from 7.03pm).

Officers: A Diamond, J Doake, R Hopkins, P Panagakos, J Robertson, A Sapolu, R Berhang, S Wickes, G Budhiraja.

### APOLOGIES

Councillors: S James

## 3 DISCLOSURES OF INTEREST

Seconded: Cr Klisaris

### **MOTION**

**That the minutes of the following meetings be taken as read and confirmed:**

- **Meeting of Council held on 25 February 2025.**

**CARRIED**

## 5 RECEPTION AND READING OF PETITIONS, JOINT LETTERS AND MEMORIALS

Nil.

## 6 PUBLIC QUESTION TIME

The Mayor advised that seven (7) questions had been received and one (1) of the questions has been disallowed.

Question 1: Marcus Fernandez from Clayton

Oakleigh Recreation Centre recently erected signs asking people to use the bathroom of "their own choice". Is this a move Monash is looking to implement Council wide? Are there any safeguards for vulnerable people who may be affected by this (i.e. unaccompanied girls)? Was the community consulted with?

***Council provided the following response:***

***Access to bathrooms in Monash Council facilities is in line with federal and state legislation. This includes the Victorian Gender Equality Act 2020 and Australian Sex Discrimination Act 1984.***

***This legislation applies to all workplaces and public facilities and is not specific to the City of Monash. The signage you refer to was for a specific event.***

Question 2: Anthony Manaras from Mount Waverley

Can you please explain to me why 11pm on a Tuesday night, and I'm having to listen to cars honking and banging of the basketball stadium? Is it not enough I have to listen to it Saturday and Sunday, I have to listen to it everyday?

***Council provided the following response:***

***The Waverley Basketball Stadium provides numerous programs and competitions. During the week, training commences at 4.00pm and competition commences at 6.30pm until the venue closes at 11.00pm. The stadium employs a shift supervisor who is responsible for patrons leaving the venue. A Council contractor is responsible for locking and opening the car park gate daily. Residents are encouraged to reach out to the Waverley Basketball Association if they have any specific concerns regarding the behaviour of stadium patrons. We will also raise your concerns with the Association and remind them to be conscious of the impact on residents.***

### Question 3: Walter Vice from Oakleigh South

The Owners Corporation of Amara Estate (Plan No. PS827468L) at 10 Alvina Street, Oakleigh South, is being charged rates by Monash City Council, which we understand include waste management services. However, despite paying for these services, our estate does not receive them, forcing us to spend an additional \$50,000 annually on private waste collection.

Given that:

1. The Minister's Good Practice Guidelines (December 2023) require transparency in service rates and charges,
2. The Local Government Act 1989 (Vic) requires service rates to reflect the actual service provided,
3. Australian Consumer Law prohibits charging for services not provided,

How does Monash City Council justify this practice, and what immediate steps will it take to either:

- a) Provide full waste management services to our estate, or
- b) Amend our rates to exclude waste service charges and compensate residents for the undue financial burden imposed over the years?

Both options are supported in other LGAs, a) being the most desirable.

#### ***The Mayor read the following response:***

***Council currently does not have a fee for service full cost recovery waste charge. We introduced a waste and recycling charge flat fee across all ratepayers in 2018 to cover the additional costs of recycling. Private waste management is also a condition of the permit for the development of Amara Estate.***

***Council met with the residents of Amara Estate in May 2024 to discuss the current "Waste and Recycling Levy" and absence of a separate waste charge. During the meeting, we provided a full overview of council practices and shared the information with the owner's corporation, which we believe was then communicated to all the residents.***

***A review of the Waste Management Plan will not be undertaken at this time and there will be no reimbursement of the cost of your private bin collection. I appreciate that this is not the outcome you are seeking. The Recycling & Waste Levy will be reviewed in the future, which will allow residents to participate and provide feedback as a part of that process.***

Question 4: Walter Vice from Oakleigh South

Security and Public Access to Westringia Walk.

Westringia Walk, which connects Amara Circuit to Scotsburn Avenue, is private property owned and maintained by the Amara Estate Owners Corporation. Council has informally advised that restricting access is not permitted due to historical public use before the estate was built.

Given that:

1. Westringia Walk is not a public asset, road, or reserve,
2. The Owners Corporation has a legal duty to protect common property,
3. The ongoing security risks (vandalism, break-ins, theft) significantly impact residents,

Can Council provide a clear legal basis for why security measures, such as gating access, are not permitted? Additionally, what formal process can the Owners Corporation undertake to restrict access and improve security while remaining compliant with Council regulations?

***The Mayor read the following response:***

***Westringia Walk is Common Property on the plan of subdivision. It is a private road not managed by Council, but is still considered a public highway at common law due to the passage of time and it's use for many decades as a walkway between Alvina Street and Scotsburn Ave. This link was also identified in the approved development plan as a connection . between the two streets. You may want to seek your own advice on this matter and what options are available to you.***

Question 5: Xuan Wang from Glen Waverley

Why I was asked to demolish the timber decking in my backyard after 15 months of the house auction? I made no changes to it. The whole house including the decking should have been inspected & approved by the council & a qualified building surveyor before it was selling to people. why the approval can be overturned so easily? I understood my neighbour was not happy for the privacy reason and we have already shared half cost & rebuilt a higher fence last month. As for the other point raised in the Building Order that the decking was too close to the easement, I promise that I will be 100% cooperative if there are any constructive works need to be done in my backyard by Yarra Valley Water in future. I really want to keep my decking as my three young children all have serious allergic reaction to insect & mosquito bites. My next door neighbour 41B now faces the same difficult situation as their house has exactly the same design as my house. Please help us!

***Council provided the following response:***

***Council has identified that there are works on your property that do not have a building permit. Councillors do not have a role in enforcement and compliance and this falls to our Municipal Building Surveyor. I understand that the Building unit has written to you explaining what is needed to resolve the issue, and I encourage you to work with them. A more detailed response is also being sent to you on matters you have raised more recently.***

Question 6: Nickolas Piperidis from Chadstone

Council continues to justify its decisions regarding facility grading and ground allocation through the Active Monash Sports Club Framework and Fair Access Policy. However, these frameworks cannot excuse flawed decision-making or the repeated dismissal of serious community concerns.

On 4 March, a formal complaint was submitted regarding water quality concerns at Mayfield Park. A response was received on 7 March, dismissing the matter without investigation. In response, a water sample was taken by members of the community on 8 March and independently tested, confirming poor water quality and discoloration.

Concerns have also been raised about the external steps leading to the player races, which Council claimed were addressed. In reality, a minimal and inadequate fix was applied to one side, while the other remains unresolved. These issues—along with ongoing sewer backflow—have been raised repeatedly by residents and community clubs since at least September last year.

Despite this, Council continues to maintain that Mayfield Park meets its grading criteria and remains suitable for community use.

Why has Council repeatedly dismissed these concerns, and how is it ensuring that the processes behind ground grading and allocation are independently reviewed and accountable to the public?

***Council provided the following response:***

***Officers have confirmed the problems with the water quality at Mayfield Reserve in response to your correspondence of 4 March. Works including the replacement of existing galvanised piping as well as a drinking fountain between the car park and the building will be completed as a priority.***

***The sewer issue reported several months ago was attended to by plumbers at the time who cut through tree roots in the sewer system and cleared the line. Those same plumbers were on site yesterday and confirmed that there is no current sewer issue. Step warning markers will also be arranged for the steps at the northern end of the pavilion.***

***The ground allocation process considers the relative standard and availability of Council's reserves and pavilions plus the number and grading of teams that each club has, and distributes these limited resources accordingly. Council is confident that this is an appropriate process.***

At 7.13pm Public Question Time concluded.
