TREE TRUNK

Fence

14 Penington Street
Glen Waverley VIC 3150

NOT TO SCALE

Notes: While every attempt is made to ensure accuracy, the vendor does not warrant the accuracy of the data shown. It is not a professional architectural drawing. The vendor is not responsible for any errors or omissions on the part of the vendor or agents.

As can be seen here, the main trunk of the tree grows over the side of 6 Ealing Ct, hence trimming of the canopy will not remove the tree from above their house or property, and any more aggressive pruning of the tree would cause significant damage to the tree and also cause instability which may lead to the tree falling onto my home.

Note: the main trunk is 2.5m from my neighbour's roof edge.

Broken tree branch down to our side recently

Kelly

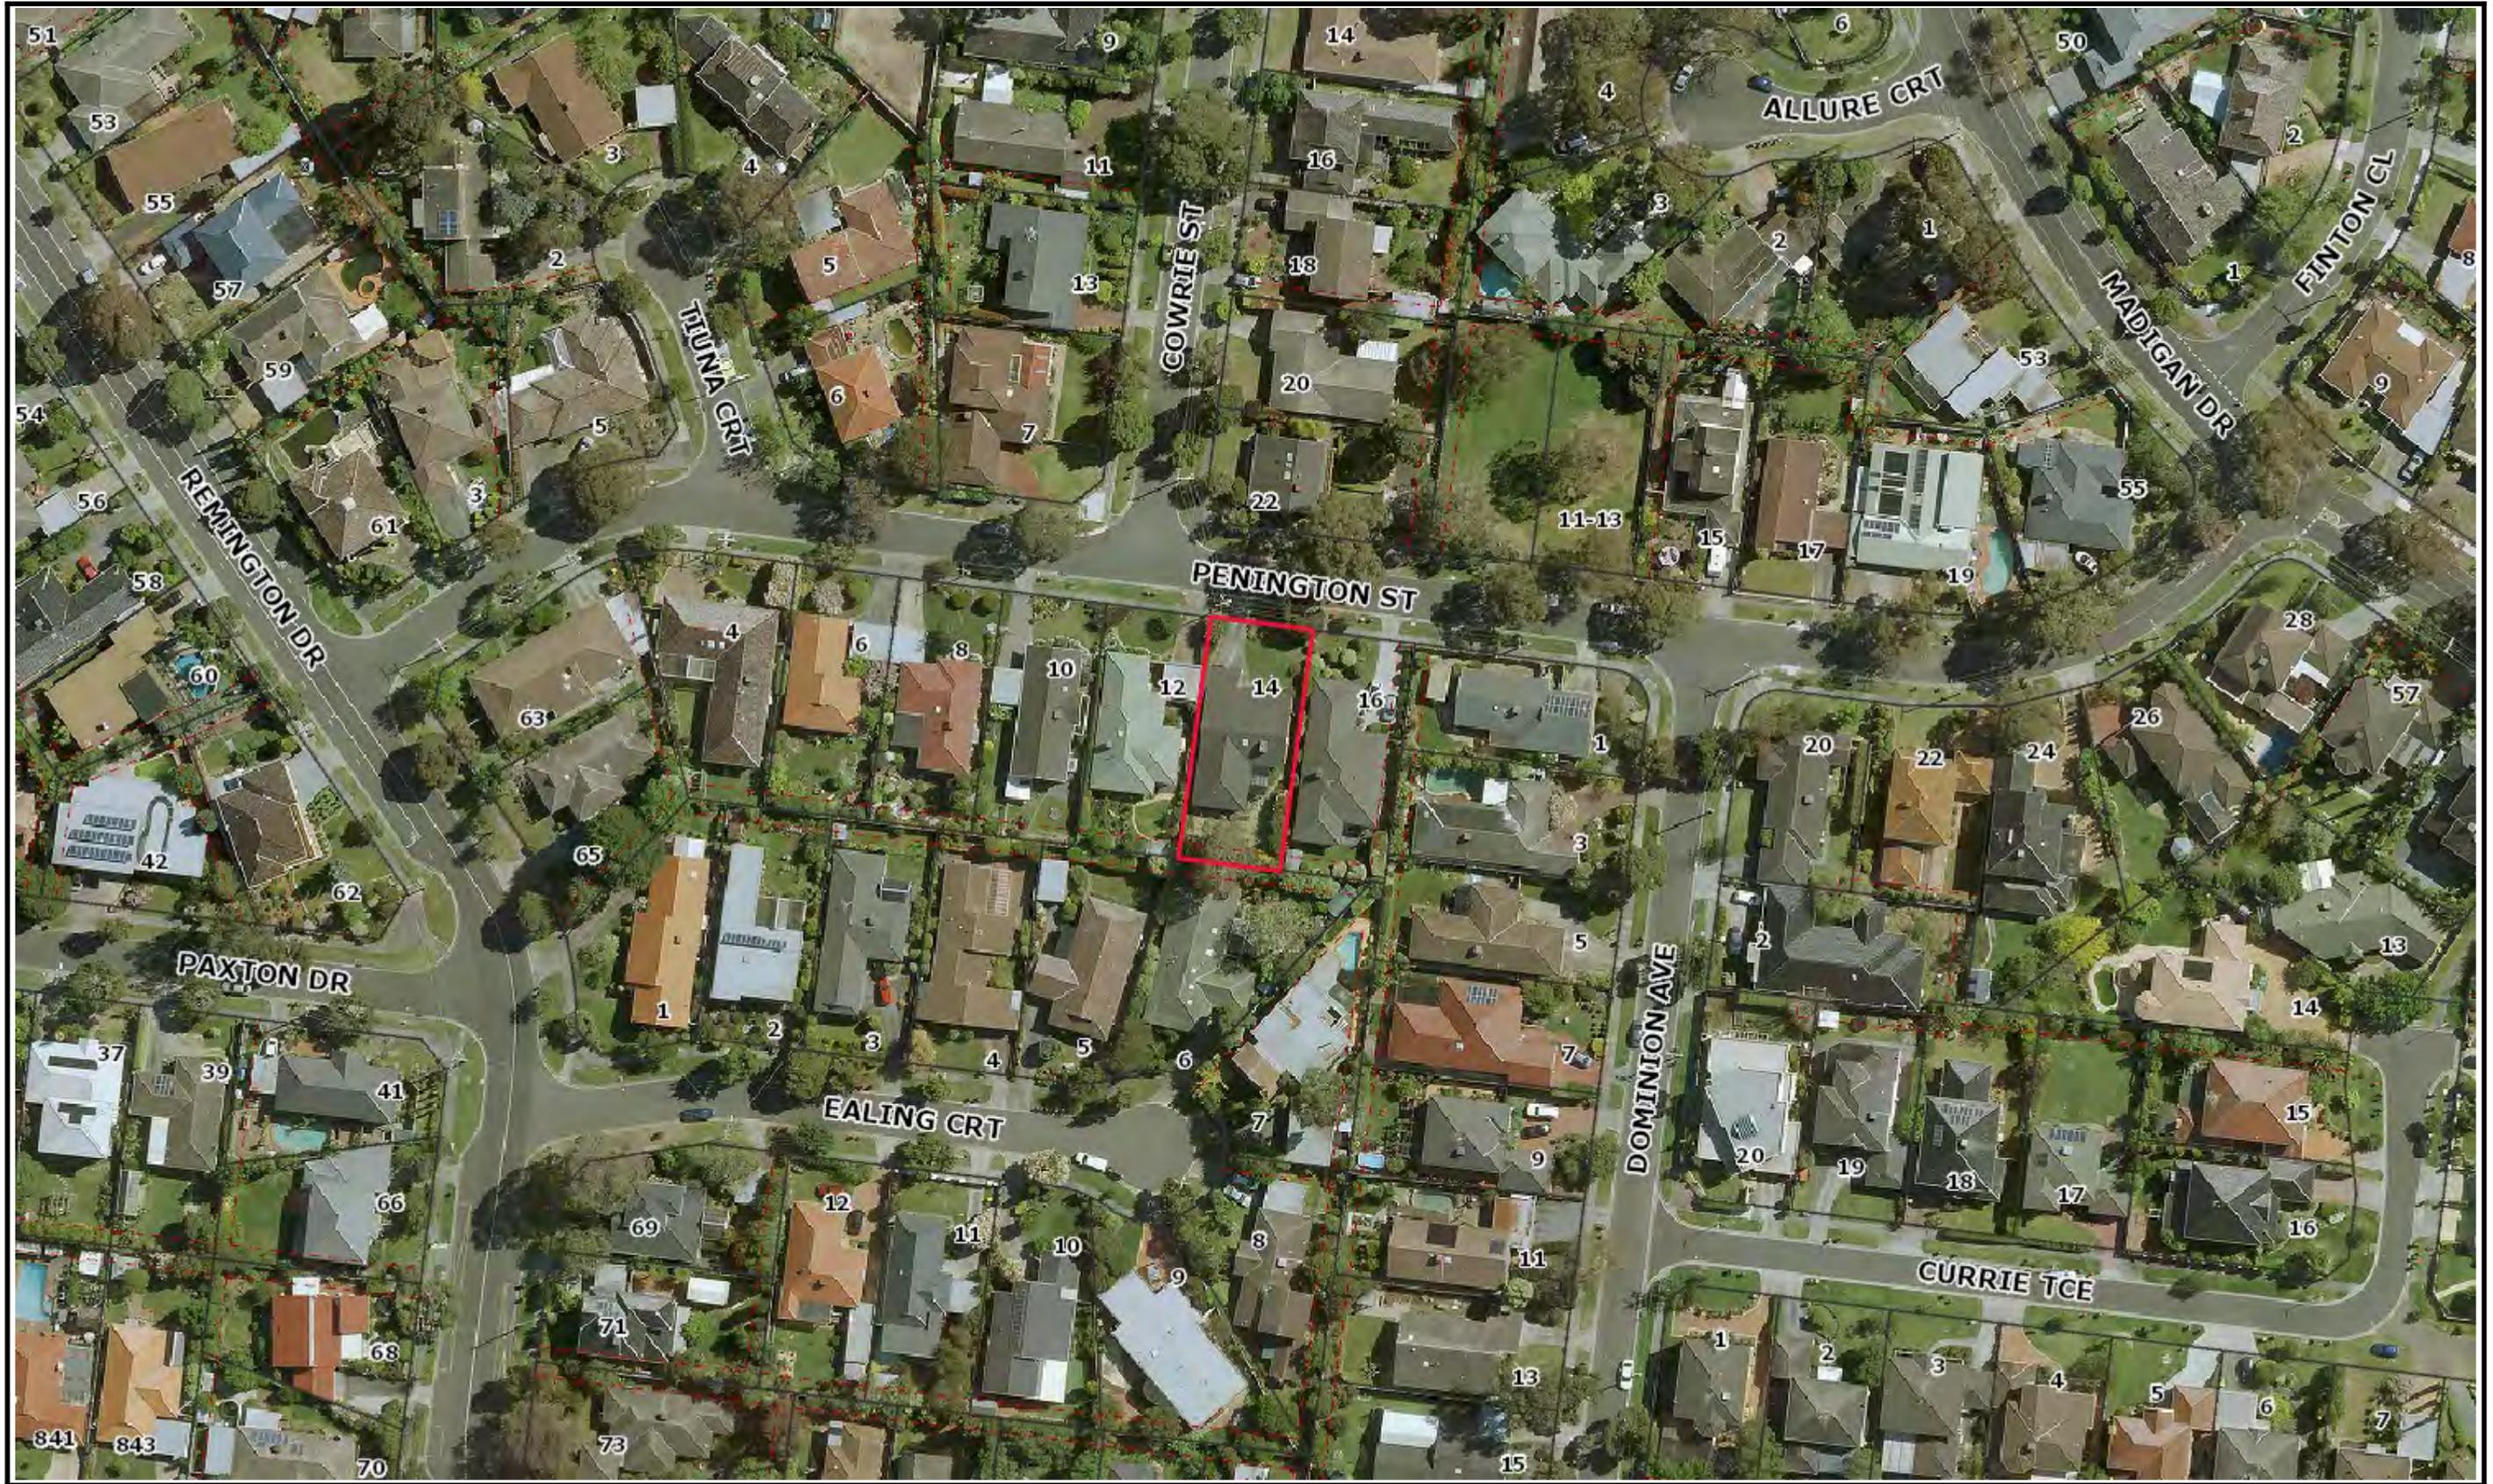

A large broken tree branch fell down on our side again recently. Please see attached picture.

It is luck that no one was hurt at this stage.

Hopefully the council can consider our tree removal as priority and make our property's environment safe to us.

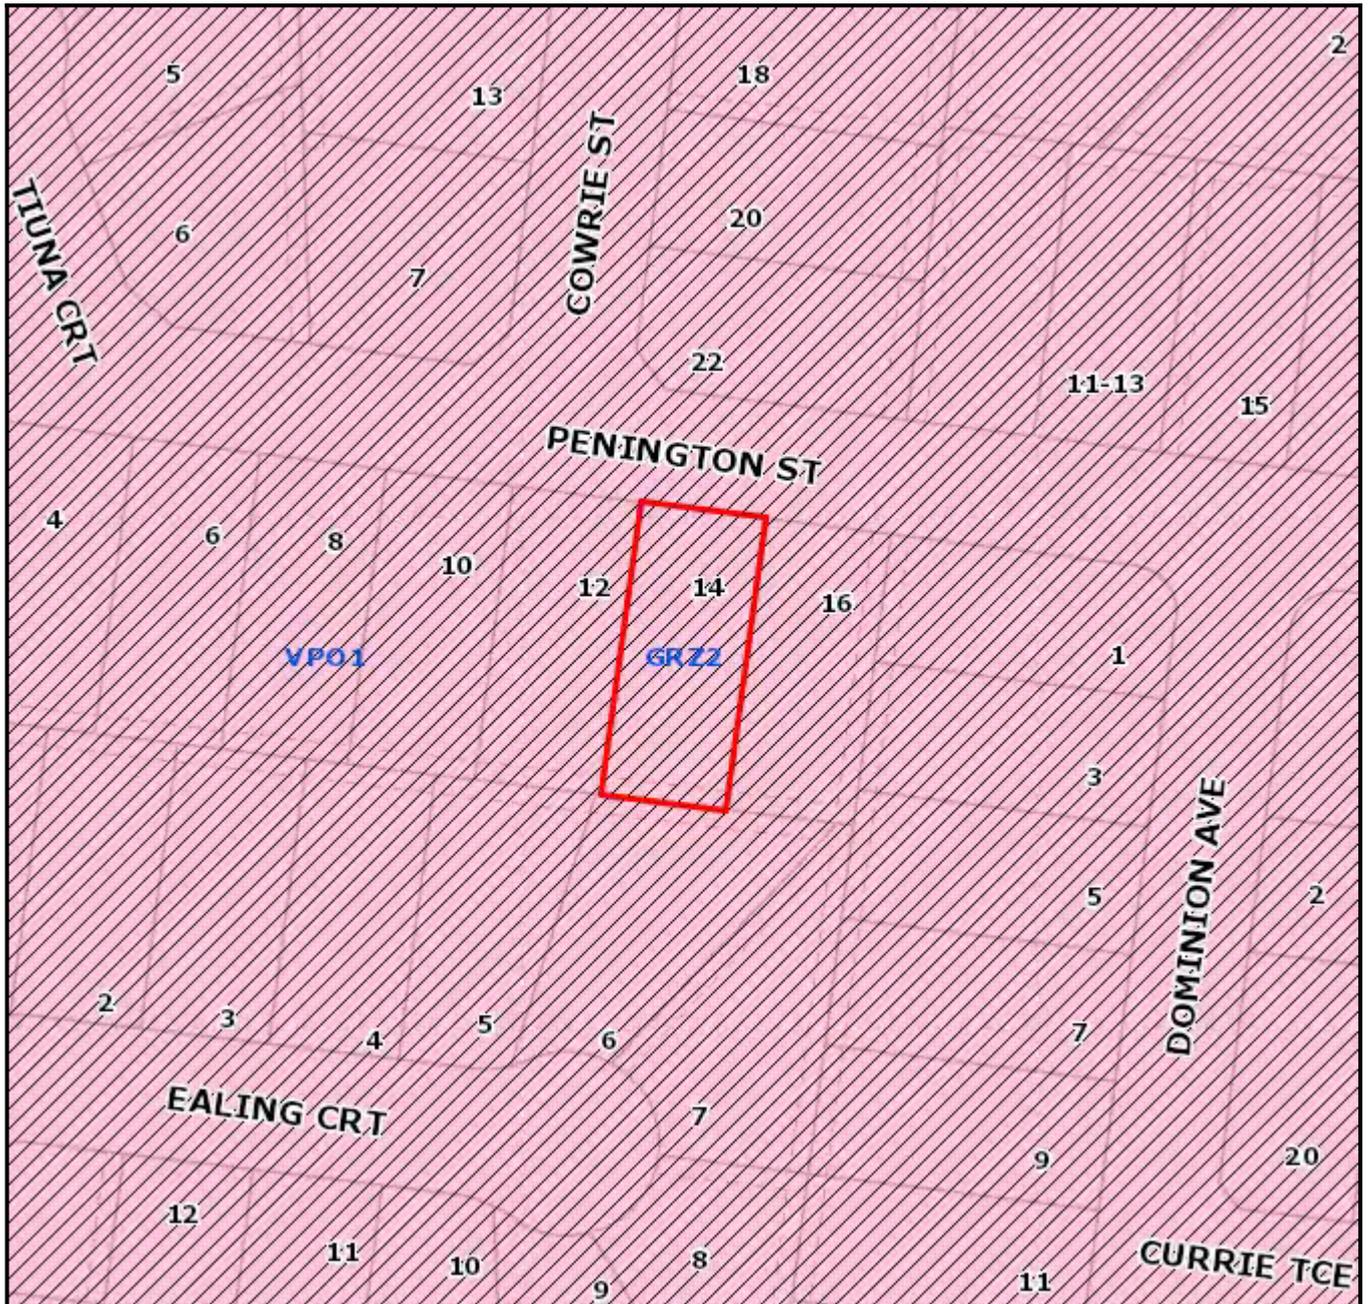

Best Regards
Paul
